

MARKET IS CLEAN OF GOODS AT ANY FIGURE OFFERED.

Some Little Brought Out Yesterday at \$13—Bonanza Circle Stocks Continue Strengthening a Little—Market Seems Healthy.

(By Frank J. Graf.) Yesterday we were informed from the most reliable sources that a rich ore strike had been made by the diamond drill at a depth of 350 feet on the Lee claim. This speaks much for the management of the Denn, and certainly is most gratifying to the stockholders, and especially those in Bisbee who have at all times had unlimited confidence both in the management and the property itself. This indication will certainly add much to the value of the stock, and you can rest assured that from now on any stock bought out of Bisbee will be bought at a high price.

Aside from this feature yesterday's market was another one of activity and briskness. All stocks are strong without exception, and in most cases are bid prices only, with perhaps an occasional asked price. The market throughout is in a healthy condition, and from present appearances higher prices will prevail.

Calumet & Arizona is strong at \$92 bid with \$94 asked, while Calumet and Pittsburgh today made heavy advances, being quoted at \$25 bid and sales were made at \$27. Sales were made in Lake Superior & Pittsburgh at \$33, and Pittsburgh & Duluth has also started to advance at \$16 bid, with sales at \$16.50. Junction today overreached the \$60 mark, and was asked at \$62. It still holds strong and only small blocks can be bought.

Tonight there is practically no Denn offered at any price. We have bought up every available share of Denn-Arizona we know of, and today sales were made at \$13. Northgate at \$27 bid, with sales made at \$28, is holding well, and higher prices may be looked for.

Warren and American are both quoted at \$9.50 bid, with no asked price. The fourth call on Black Mountain is still holding the stock down to \$3.12 1/2 bid with \$3.25 asked. Manhattan and Chiricahua are quiet, with little trading.

WALTER DOUGLAS RETURNS

ANNOUNCES THAT COKE OVENS WILL BE ERECTED AT DAWSON COAL MINES.

General Manager Walter Douglas returned this morning from the Dawson coal mines, recently acquired by the Phelps-Dodge interests in connection with the purchase of the E. P. & N. E. railroad. When this purchase was made Mr. Douglas was en route home from Japan and this was his first visit to Dawson and over the new line of railroad which has become a part of the Phelps-Dodge system.

Asked if there was anything of special interest to the public in connection with the interests which he represents, Mr. Douglas stated that there was not, but in answer to a question as to whether it was the intention to increase the force now at work in the coal mines, he stated that there would be no increase there until coke ovens were built and ready for operation. He stated that the coke ovens would be built at the mines.

A few days ago the story was published in El Paso that coking ovens would probably be placed at El Paso, but none gave the story any credence. With coking ovens at Dawson, Phelps-Dodge will be able to supply coke to the various reduction plants in Arizona and New Mexico. Already an order for 500 specially constructed cars have been ordered by the Phelps-Dodge system and this fact is an indication of the large business in that line that is expected.

THIRTY FEET OF GOOD ORE IS PASSED THROUGH IN THE DRILL HOLE.

Latter is on the Lee Claim—is Now Down 350 Feet—Bottomed in Formation Which Gives Promise of Bringing in More Ore.

For a week past there has been more or less speculation as to what might be at the bottom of the steady advance in the price of Denn-Arizona which has been strongly in evidence. Yesterday explanation came in the shape of announcement from headquarters in Duluth that in the drill hole on the Lee claim ore had been got at 350 feet. This ore is oxide and carbonate. Thirty feet were passed through.

Assays made of the ore show that it runs between 8 and 12 per cent in copper values. At the present time the formation at the bottom of the drill hole is reported as very favorable to the near presence of another ore body, and there is expectation that new developments of importance will not be long delayed.

With the transmission of the news of the strike to Duluth there was considerable gathering in of Denn-Arizona stock by the insiders, and the price advanced rapidly from \$7 to \$19 bid. In the last few days there has been none coming out at the latter figure, holders asking considerably more and not being then anxious to sell.

Locally the news of the strike has been received enthusiastically. Not only is this true on account of Denn-Arizona immediately, but because of the fact that the find proves up a considerable area of ground to a considerable extent. Saginaw, American Development and others benefit from the find, and are encouraged very decidedly. Work in the drill hole is going on without interruption, and in highly favorable manner, there being present, as above stated, indications of another important ore body near at hand.

While the present strike does not make a mine of Denn-Arizona, it is a long step in that direction and gives ground for high enthusiasm among those interested in the property. The history of the district as made by the findings of the producing mines that it has, gives reason for the belief that Denn-Arizona will have the goods to deliver when it concludes pursuit of the formation that it is now down into with the drill.

MONEY AND METALS.

DEAL ON FOR THE DON CARLOS, ON PILARES FAULT, NEAR NACAZARI.

Has Wonderfully Rich Ore Showing in Shaft Down 125 Feet—The Purchasers Will Be Minneapolis and St. Paul Capitalists.

John Holmes, a well known prospector in this district and in Sonora, is in town from his Don Carlos property near Nacozari. This property has had considerable development in the last several months, and has shown up in manner that gives every reason to expect that it will turn out to be exceedingly rich.

Mr. Holmes is here at the present time with reference to the closing of a deal he has on for the transfer of the Don Carlos to Minnesota parties. The latter are headed by John Holmes of Minneapolis, who is a partner at the present time with John Holmes, of Nacozari, there being consequently a remarkable similarity in the names of the partners, though they are not related by blood ties.

The principal work on the Don Carlos is a main shaft that has sunk 120 feet to the present time. Silver predominates in the vein that this shaft has. Assays that have been made of ore from the vein shows silver running from 60 ounces to 1,000 ounces to the ton. The vein also carries copper values running as high as 42 per cent. The prospective purchasers, with whom a deal has been closed with the exception of final minor details, are strong capitalists of St. Paul and Minneapolis, and they will take hold of the property with expectation of putting in money sufficient to make a mine. The first steps in this direction will be in the way of installation of a hoist at the shaft to the end of making depth of several hundred feet at the earliest possible date. The property is on the Pilares fault.

A WOMAN TO BE PRETTY

Must Have Lustrant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loveliness of the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Just What Everyone Should Do.
Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all dealers in patent medicines.

Sprained Ankle, Stiff Neck, Lame Shoulder.

These are three common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all dealers in patent medicines.
